

**HELP
WANTED**

The CIA is recruiting undercover agents who speak "High Dutch" fluently for service in Indonesia; the CIA is really shaking the bushes looking for qualified applicants. The CIA personnel division is circularizing other Federal agencies seeking help in finding eligible persons for "cloak and dagger" work. The CIA is sending recruiters to colleges looking for young graduate economists who have majored in Southeast Asian economics and political science. The CIA wants to make Indonesia safe for Standard Oil and communism.

If interested, write Personnel Division, Central Intelligence Agency, 1016 16th Street, N.W., Washington, D: C.
